Subject: Fw: ADQ report for Pavillion April 2011 RSKERC data

Dave-

An Audit of Data Quality (ADQ) was performed on data from Shaw for the April 2011 sampling event at Pavillion due to concerns with allegations made in an anonymous email. Although two Findings and Observations were identified, these were not of a nature which would provide support for the allegations. In addition, the VOC data was not a part of these Findings or Observations. Shaw is to provide responses to this report by Sept. 20, 2011.
